BE A WINGMAN
Empower the rise of young women in civic and political life.
Women and Girls Foundation

Mission:

The Women and Girls Foundation (WGF) achieves equality for women and girls, now and for generations to come. The organization focuses on developing female leaders of tomorrow and advancing women’s rights today in order to secure equal access, opportunity, and influence in all aspects of women’s public and private lives.
We Have A Problem:

Pennsylvania is consistently ranked as one of the worst states for the representation of women in government.

In 2017, Pennsylvania ranked 49th out of 50 in female representation in elected office.

This factor, as well as others, contributes to women’s voices and issues having less priority in important decision-making, political, and civic processes.
Work Toward Solutions:

Support **GirlGov**, an original Women and Girls Foundation program created by teen women for teen women to be a systemic and long-term solution to that problem.

Over 700 girls from 46 schools and five counties have been trained as future leaders.

SNAPSHOT: GirlGov participants have accomplished a lot, including:
• advocated for women’s safety legislation,
• led internationally-recognized brand boycotts,
• attended mentoring luncheons at the White House,
• started comprehensive sex education programs in schools, and more.
You Can Help

Become a WingMan.

In an unprecedented achievement, the Women and Girls Foundation have secured $100,000 in contributions from chief executives in Pittsburgh’s most influential companies and organizations — including PNC, Peoples, Pittsburgh Penguins, Magee-Womens Research Institute, Highmark Health, First National Bank, Point Park University, University of Pittsburgh, and more.
Join the Effort

Make a Contribution

Whether it’s $50, or $5,000 — it all matters.

Donate today. Whether it is a corporate or individual donation, all contributions make an impact.
